

AQP6RC, D & E PUMP RELAY

The AQP6RC, D and E Pump Relays are used when the amperage draw of the pump to be controlled exceeds the amperage carrying capability of the controller you are using. Each relay will accept as many as 6 triggering inputs in either 100-120/1/50-60 or 200-240/1/50-60 power range.

AQP6RC	200-240/1/50-60	2 POLE	20A MAX
AQP6RD	200-240/3/50-60	3 POLE	30A MAX
AQP6RE	380-460/3/50-60	3 POLE	30A MAX
